

Seaton Community Hospital - Outpatients - 'Friends and Family Test' - Apr-16 to Jun-16

Adult FFT card question: *How likely are you to recommend our service to friends and family if they needed similar care or treatment? Response options: Extremely likely, Likely, Neither likely nor unlikely, Unlikely, Extremely unlikely, Don't know.*

Children and young person's FFT card question: *Would you tell your friends that this is a good service to come to?*

Quantitative Results

The Friends and Family Test (FFT) score is calculated as outlined in the NHS England guidance issued in Oct-14. The calculation is as follows:

'Would recommend' percentage is calculated as follows:

$$\frac{\text{Extremely likely + Likely (Yes)}}{\text{Extremely likely + Likely + Neither likely nor unlikely + Unlikely + Extremely unlikely + Don't know (Yes + Maybe + No + Don't know)}} \times 100$$

'Would not recommend' percentage is calculated as follows:

$$\frac{\text{Extremely unlikely + unlikely (No)}}{\text{Extremely likely + Likely + Neither likely nor unlikely + Unlikely + Extremely unlikely + Don't know (Yes + Maybe + No + Don't know)}} \times 100$$

The Trust's target 'Would recommend' score is 75%.

Month	Responses No.	Would recommend %	Would not recommend %	Neither likely nor unlikely to recommend / Don't know %
Apr-16	1	100.0	0.0	0.0
May-16	No data	No data	No data	No data
Jun-16	No data	No data	No data	No data
