Freedom of Information

Thank you for your 24/09/16 request for the following information:

I would like to know how much this trust spent in the last financial year to treat immigrants and asylum seekers. If you don't know the exact amount you can give me an estimate.

Answer: The Trust does not have data on immigrants, if they are in the UK legally and entitled to NHS treatment or have paid the health surcharge, they are entered on the patient administration system the same as any other NHS patient and are therefore not identifiable.

To help give some scope to the value of the request the Trust can confirm that £16,527 was collected from migrants, visitors and former residents of the UK who must pay for their care when they are in England.
