

Videofluoroscopy

It is an **x-ray** of your **swallowing**

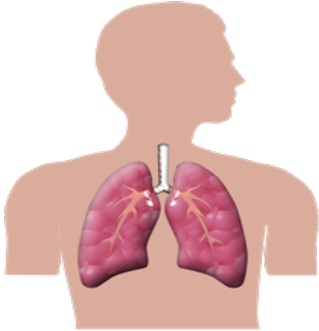

It looks at how you **swallow** when you **eat and drink**

You can **ask us** any **questions** about the **x-ray**

Why?

To see if **food** or **drink** goes the **wrong way**

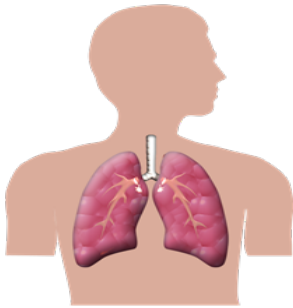

To see if **different foods** or **drinks** are **easier** and **safer** to **swallow**

To see if **different head positions** or **exercises** will **help swallowing**

The possible **risks**

There is a **risk** that **food** or **fluid** may **go down the wrong way**

There **is** a **risk** from **radiation**
We take care to **give** you a **small** and
safe amount of x-ray **radiation**

Please **let us know** if you are or think
you are **pregnant**

Giving your consent

Consent is being **asked** if you **agree** to something.

You can say yes or no

Yes
